Sink & Mixer Tap

Sink Module

Sink to suit Sink Module. Matte Black sink is made from premium materials for a more robust finish and design.

- 450mm x 300mm x 200mm
- COLOUR: Matte Black finish

Sink Module - Mixer Tap

Mixer Tap to suit Sink Module. Matte Black Mixer Tap gives your outdoor kitchen a modern, contemporary look and feel. The outdoor kitchen mixer tap is designed for full hands, the long spout enables you to use your elbow if you need to move the spout out of the way. The 360° swivel function makes this an efficient tap for your outdoor kitchen.

- COLOUR: Matte Black finish

Planning and location of water, waste, power and gas services.

Preparing and checking the installation location is important to ensure the modular kitchen assembly and installation is as smooth as possible.

Ideally the floor surface should be level, clean and suitable for the cabinet installation along with water, waste, power and gas services, being able to be roughed in and compliant with all required with all required local government standards.

The services being roughed in should be left long enough to enable them to be fitted off inside the relevant cabinets after they have been installed.

**Note: All plumbing and electrical work must be done by a registered trades person.*

CLASSIC & PREMIUM SERIES

Planning and location of water, waste, power and gas services.

FRONT VIEW

SIDE VIEW

HOT & COLD WATER

Ideally centralised in the Sink Cabinet

650mm

Above Floor Level

200mm

From Back Wall

WASTE

This can be through the base or back of the Sink Cabinet

300mm

Above Floor Level

350mm

From Back Wall

PREMIUM SERIES will be wider as it will included the single 3 drawer module

ELECTRICAL - FRIDGE & APPLIANCE

The fridge requires 240V Power.

The preferred location for a power point to service the fridge is either mounted to a permanent wall behind the fridge module or in the cabinet module next to the fridge.

The preferred method is to have the power point in the cabinet module next to the fridge.

Cut a hole 50mm diameter in the fridge module to allow for plug access.

You may require power for a Rotisserie or other electrical appliance above your benchtop working surface.

GAS CYLINDER LOCATION

Gas cylinder is to be positioned inside the storage module between the BBQ and Fridge Modules.
